

RELENTLESS INNOVATION IN ACOUSTIC AMPLIFICATION

PROPOSITION 65 WARNING

WARNING:

Our product(s) contain(s) chemicals known to the State of California to cause cancer and/or birth defects or other reproductive harm.

THE LAW:

Prop 65 requires a warning for any product that may contain any of more than 700 chemicals that The Office of Environmental Health Hazard Assessment (OEHHA) of the California Environmental Protection Agency considers a carcinogen or a reproductive toxicant.

Many of the elements listed under Prop 65 are common everyday items such as saw dust, brass (frequently used in household water fittings and door knobs), nickel (contained in US coins and clothing accessories), PVC (used in most lawn irrigation systems), and a multitude of other commonly used materials. As well, many are very uncommon and are rarely used in the electronics industry, if at all. The list of elements changes frequently.

OUR PRODUCT(S):

To date, we have identified the following listed chemicals as being contained in our product(s): nickel (in plating), carbon black (coloration, embedded in epoxy), lead (used in very small amounts in brass and piezoelectric crystals), and tetrafluoroethylene (commonly called teflon, used as insulation/dielectric in wires). As well, some chemicals are used in the creation of our products such as ceramic fibers (used in piezoelectric materials) and methanol (in denatured alcohol used in piezoelectric cutting process).

NO SIGNIFICANT RISK:

A warning label such as the one below is considered to be in compliance with warning requirements. We are providing warnings in an excess of caution and they should not be taken as an admission that a warning is required. We have no reason to believe that normal handling of our products will result in any significant risk, even assuming lifetime exposure, or exposure at 1000 times the level that results from handling our products.

MORE INFORMATION:

For more information about Prop 65 visit the Office of Environmental Health Hazard Assessment and for a list of elements listed under Prop 65 visit: <https://oehha.ca.gov/proposition-65>

Example, or similar warning label included in our products:

Warning: our product(s) contain(s) chemicals known to the State of California to cause cancer and/or birth defects or other reproductive harm and is required to include this warning under the California Safe Drinking Water and Toxic Enforcement Act known as Prop 65.

This warning is in an excess of caution and should not be taken as an admission that a warning is required. We have no reason to believe that normal handling of our products will result in any significant risk, even assuming lifetime exposure, or exposure at 1000 times the level that results from handling our products.
